

Conversion Table of New ICD-9-CM Codes

The National Center for Health Statistics (NCHS) and the Health Care Financing Administration (HCFA) have issued new diagnosis and procedure codes for the International Classification of Diseases, 9th Revision, Clinical Modification (ICD-9-CM) every year since 1986. New code assignments are the result of year-long efforts of the ICD-9-CM Coordination and Maintenance Committee, which is sponsored jointly by NCHS and HCFA. The effective date for new codes is the same every year, October 1.

The Conversion Table for new ICD-9-CM Codes is provided to assist users in data retrieval. For each new code the table shows the date it became effective and its previously assigned code equivalent. The code equivalents were used for reporting diagnosis and procedure information up to the time the new codes were issued.
